

Censorship can take many forms. As a citizen, I have less power to demand a fair, full spectrum of news, opinion, and entertainment when my media outlets are owned by a single large entity than I would if even government were controlling them. I therefore object in the strongest possible terms to the FCC's proposed rule change. DON'T DO IT!!

To Congress:

Please don't let us down yet again. You can prevent this abomination. We count on you to do it.
